Independence Bank to Build Signature Location in Mayfield

On Tuesday, July 19th, Independence Bank directors, employees, city officials and Ben Franklin himself will break ground on what will be Independence Bank's first signature full service banking location in Mayfield. The Independence Hall inspired building will be located at 100 East College Street. The location will be approximately 5,580 square feet; feature a signature blue clock tower, and a 58 ft. cupola. The building will be a destination point in the community beyond financial services. Independence Bank will be utilizing local contractors and subcontractors on the project and begin work in October 2016. The project is expected to be complete by August of 2017.

"I cannot put into words how exciting it is to be part of the Independence Bank revolution as we expand across Kentucky and into Graves County," said Independence Bank President Darvin Towery. "I am excited to begin construction on our first location in Graves County and continue our investment into the community. Our staff is already in place in our current location at 337 Charles Drive to serve the Graves County Market. We will be adding additional staff when the new facility is completed to continue the expansion into Mayfield and Graves County community."

Independence Bank is a locally owned and operated community bank with 22 locations in Calloway, Daviess, Franklin, Graves, Hancock, Henderson, Hopkins, Jefferson, McCracken, McLean, Warren and Webster counties with assets over \$1.9 billion.
